

### AutoPunch 360

#### Features

- Continuous paper feed automatically separates the sheets, punches and reassembles the book in the original sequence
- No tools are needed to set the format
- Very fast change of punching dies
- Large selection of punching dies including wire, plastic comb and coil binding (For greatest flexibility and fastest format changes use the optional QSA-dies [Quick Size Adjustment])
- Mounted on wheels for easy transport
- Compact profile fits through standard doorways
- Can be equipped for either continuous or cycled operation

The AutoPunch 360 features automatic punching with fully automatic or manual format changeover for all punching patterns used with loose leaf binding systems and specialized hole patterns.

#### Features

- Preprogrammed for all standard paper sizes
- Up to 20 custom jobs can be stored for one-button recall
- Will punch up to a 14" stack of paper
- Supports paper stocks of 16lb bond to 140lb bond
- Handles paper from 16lb bond to 140lb bond, intermixed weights, flush-cut covers and standard index tabs
- Handles paper from 5 1/2" to 12" (Punched Edge) 5 1/2" to 9" (Unpunched Edge)
- 19 Interchangeable die sets provide punching pattern versatility (not included)

The Quantum P70iX Production Grade Punch is the digital print industry's first near-line high speed production punch, specifically designed for the unique requirements of digital print operations. It has a fully digital push button control panel that remembers custom job set-ups, pre-sets standard paper sizes and monitors operation. Unattended operation and user-friendly display make using the Quantum fast and easy. The simplicity of use for set-up, changeover and operation make the P70iX a superior choice for Production punching.

### Quantum P70iX

### USP13

#### Features

- Handles pre-collated and intermixed index tabs and materials of varying weights and textures with ease
- Handles paper from 6" to 13" (Punched edge) and 5" to 12" (unpunched edge)
- Output maintains collation
- Variable speeds allow adjustment for difficult to run stocks
- Carbon brushes reduce paper static
- Punches up to 120,000 sheets per hour (averages 80,000)
- 7 Interchangeable die sets provide punching pattern versatility (not included)

The commercial duty USP13 Universal Speed Punch is an ideal choice for high volume applications. This offline punching system features a short, straight paper path that minimizes jams. This unit is equipped with a bottom feed hopper to maintain document collation throughout the punch run. The USP13 handles a wide variety of interchangeable punching dies for the most popular binding styles including ComBind, WireBind, VeloBind and ColorCoil.

## AP2 Ultra

### Features

- Output stacker maintains job collation without a turn-over device
- Edge guide adjustment knobs allow sheet size change effortlessly without tools
- Variable speed control and adjustable pick feeder to accommodate various paper stocks
- Electronic adjustment for heavily curled stock
- CombBind, WireBind, ColorCoil, Proclick, VeloBind and Loose-leaf die sets available
- Handles paper from 5 1/2" to 12" (Punched edge) 5 1/2" to 11 3/4" (Unpunched edge)
- Feed hopper and output stacker hold 2,500 sheets of 20lb bond or equivalent
- 8 Interchangeable die sets provide punching pattern versatility (not included)

The AP-2 Ultra Automatic Punch can accommodate a wide variety of sheet sizes, punch styles and paper stock, making it the right choice for the on-demand environment. It punches intermixed index tabs and irregular sized covers with ease. Advanced paper handling technology makes feeding coated, laminated glossy and heavier stocks trouble free. The electronic control panel enables the user to set the speed for each job. Die sets can be changed quickly and without any tools.

The Sterling DigiPunch is an economical high speed punch designed for printers and short run binderies. The machine features a variable pile lift, which allows for punching up to 60,000 sheets per hour. That's a big pile of paper for a small machine and a half million sheets per shift. A touch screen offers complete automatic set up and automatic changeovers. Punch sheets from 5.5 x 5.5 inches to 12 x 13 inches for Comb, Coil and Double Loop Wire, or any hole pattern.
