

Features

- Electric binding for increased productivity
- Multiple spine-size settings for faster operation
- Dual adjustable rollers provide maximum roller contact for binding the full range of coil sizes
- All metal construction, including die cast sides, provides longer life and greater durability
- Adjustable knives ensure the proper cut and crimp every time
- Single lever control ensures simultaneous crimping action for easy use
- Heavy duty rollers ensure continuous operation for maximum output

This electric finisher makes it simple to turn out perfect color coil presentations in record time. A unique, adjustable dual-roller system quickly threads coil through punched stacks. Built-in dual crimper cuts and crimps both ends in one step.

CI12 Electric Color Coil Inserter

Coil Inserter CC2700

Features

- Electric binding for increased productivity
- Versatile binding system accommodates a variety of coil pitches, including 4:1 and 5:1
- Built-in storage for spine cutter/crimper hand tool
- Crimper hand tool included
- All metal construction, including die cast sides, provides longer life and greater durability
- Exclusive Color Coil spine former forms the paper to match the curve of the coil
- Electric rollers adjust to three different positions allowing for maximum roller contact for coil sizes 5mm to 33mm

The dual-roller system gets spines through punched sheets with reliable ease, and three adjustable spine-size settings ensure instant accuracy. A built-in spine former shapes stacks for easier binding.

Features

- Crimps 6mm-50mm coil
- 90 Degree cut angle
- Cuts coil from 3 1/2" to 14" in length
- Perfect crimp every time
- Includes 3 interchangeable cutter blades
- 50 Cycles per minute
- Includes foot pedal for hands free operation

The Marlon 350E is an Electric Auto Crimper designed to increase your plastic spiral binding production. It features a coil waste chute that uses standard plastic grocery bags for clipping waste containment. Machine comes with 3 interchangeable cutter blades; Also available in an air power version.

350E Auto Crimper

Crimp-@-Coil Two Sided Crimper

Features

- No tools or parts required for changes in size
- Crimping head suits all plastic coil diameters
- Patented coil holding device that holds coils in place during the crimping process, for the perfect crimp
- Lockable crimping unit: Sliding crimping unit is easily moved and locked into position
- Removable coil cut off collection bag
- Robust all metal construction
- Foot pedal operated

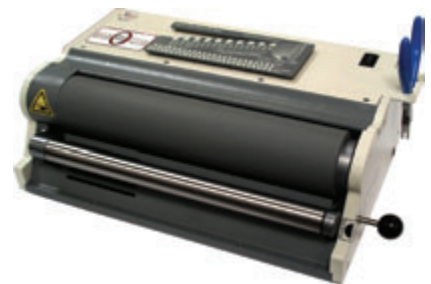

The Crimp-@-Coil is an adjustable double headed crimping machine that cuts and crimps the full range of plastic coil diameters from 6mm up to 50mm with the same adjustable crimpers. The convenient waste bag collects the off cuts keeping work-space tidy

Features

- Book thickness gauge
- Coil sizing gauge
- Crimper pliers holder
- Inserts all pitches and diameters
- Superior rubber formula grabs coil better

The HD4170 Heavy-Duty Coil Inserter is the answer to any high volume job. The HD4170 Coil Inserter Module has 12 inch dual powered adjustable rollers for easier more accurate coil insertion. When using the HD4170 all pitches and diameters can be inserted. The HD4170 comes with a crimper pliers holder and can be used as a stand-alone production coil inserter or can be mounted on an OD or HD series punch.

HD 4170 Heavy-Duty Coil Inserter

CBS 340 Electric Coil Inserter

Features

- Electric spiral coil inserting machine with integrated cutter and crimper
- Binds with plastic coil up to 20mm
- Bind documents up to 160 sheets thick with 4:1 or 5:1 plastic spiral coils
- Use as a stand-alone work session with the purchase of the Modular Holder
- Forms a productive spiral coil punch and binding system when mounted to the DTP 340M

The newly redesigned CBS 340 is an electric spiral inserting machine with an integrated coil cutter and crimper. When used with the DTP 340 M punch it forms a productive spiral coil punch and binding system. It can also be used as a stand-alone device with the purchase of the Modular Holder.

**Finish@Coil - E
Electric Inserter w/
Electric Crimper**

Features

- Full length roller with adjustable roller mechanism
- Built-in electric coil crimper
- Synchronized roller/crimper adjustment
- Built-in coil diameter scale and diameter selector
- Built-in pitch identifier
- Built-in U-shaped alignment channel

The new Finish@Coil E is one of the most easy-to-use coil finishers that you can find in the market today. With the Finish@Coil E, you will easily and quickly crimp off the excess coil in your book with a simple press of the foot pedal. It is ideal for operators that demand maximum productivity and best binding results, with minimum efforts. It is a must for all binding centers with large workloads.

Features

- Binds up to 468 sheets with 50mm coil
- Spiral coil diameter scale and diameter selector
- Foot pedal operation
- Pitch identifier to verify that the coil pitch matches that of the punched document

The Finish@Coil M Inserter is a feature rich coil inserter that will make inserting coil into booklets simple and easy. It features U-shaped alignment channel that aides for conforming the spine of larger diameter documents to the coil's shape for faster insertion and see through coil crimpers compartment. Coil crimpers included.

Finish@Coil - M

Roll@Coil

Features

- Diameter scale and diameter selector
- Alignment channel
- Foot pedal operated electric roller inserter
- Electric coil inserter drastically reduces time and costs
- Pitch identifier: Verifies that the coil pitch matches that of the document

The Roll@Coil will save you time and reduce costs. Ideal for businesses that demand professionalism and productivity. A must for all binding centers with large workloads.
