

**EWC 8370
Electric Wire Inserter
& Closer**

Features

- Safe and easy push button operation
- Inserts and closes in one EZ step. Eliminating building book on the wire or manual inserting into document
- EZ alignment gauge for oversized covers
- Optional interface kit. Use as a stand alone or in combination with any vertical punch and obtain maximum binding and punching throughout
- Adjustable for varying sizes of 3-1 pitch 1/4" to 9/16" (6mm-14mm)

The EWC 8370 is a reliable one EZ step inserter and closer all included in a safe, button operated, electric module. The EWC 8370 is adjustable for varying sizes of 3:1 pitch wires from 1/4" to 9/16" (6mm-14mm). The EWC 8370 makes wire inserting and closing easier than ever before.

Features

- Binding width up to 14.2"
- For finished binding elements up to 1 1/4" (360mm)
- Integrated safety device helps prevent finger injuries and provides maximum operator protection
- Quick and easy adjustment to wire diameter

The ECL 360 will perform approximately 400 closings per hour, with or without calendar hangers. Calendar hangers have to be added manually before closing. Foot switch operation leaves both hands free for binding. Use the integrated hanging device for fast comfortable working.

Electric
Wire Closer**

**TL2900 Electric
Wire Closer**

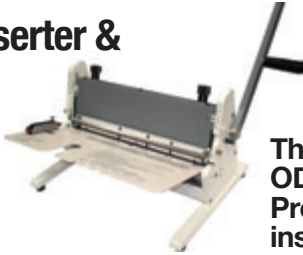

Features

- Electronically binds wire elements from 1/4" to 1 1/4", producing up to 200 books per hour
- LED guide indicators
- Spine-size settings
- Adjustable knob for fine-tuning spine closure
- Wire holder for easy loading of spines
- Angled surface for easy loading and paper alignment

Wire binding is quicker and easier with this smart electric finisher. a dual load-and-crimp station eliminates the extra step of moving documents for binding. Just hang the spine, load the paper and close with the touch of a button. This finisher binds documents up to 12" long.

HD 8370 Semi-Automatic Wire Inserter & Closer

Features

- Inserts and closes in 1 easy step. Eliminates manual insertion of wire
- Module design attachable to both OD and HD series punches
- Closes 3-1 pitch wire from 1/4" to 9/16"
- 14" binding edge
- Easily adjustable for varying sizes
- All metal construction, lightweight and portable

The HD 8370 Insert-A-Bind wire inserter/closer mounts to OD 4000, OD 4012, OD 4800, HD 6500, HD 7000 AND HD 7700 punches or with Stand Alone Production Feet. It inserts and closes in one easy step, eliminating manual insertion of wire into documents.

Features

- Dual adjustment knobs: Guarantees an even wire crimp every time
- Wire Element Guide: Indicates the proper set up
- Flat Front Surface: Convenient area for jogging documents and loading wire elements
- All metal construction offers durability and dependability
- Stacks on most punches to save space

The MC 12 is an ideal manual wire closer for office environments looking to improve their finished proposals or in high production environments where simple operation is key.

HD8000 Manual Wire Closer

Features

- Easily adjustable for wire sizes
- Manual wire closer
- Closes 3/16" to 1 1/4" Double-Loop Binding Wire
- Optional wire hanger available

The HD8000 offers fast and accurate settings, providing a significant savings on wire costs: wire that is spoiled during set-up and adjustment of competitive closers. All HD modules will mount on your HD and OD series punch.

Features

- Use as a stand-alone workstation with the purchase of the modular holder
- Works with all wire pitches (3:1, 2:1, or Spiral-O)
- Closes wire elements from 3/16" to 1 1/2" in diameter (binds up to 250 sheets of paper)

The WBS 340 is a manual wire closer for wire binding elements of any pitch (3:1, 2:1 or Spiral-O). When used with the DTP 340 M it forms a productive punch and binding system. Or use as a stand-alone device with the purchase of the modular holder.
