# SPRINTER-LAM 335R6

Pouch Laminator

The **Spiral Sprinter 335R6 Pouch Laminator** is a professional 6 roller laminator that is designed for laminating photos and digital images bubble free. The advanced hot 6 roller system with adjustable speed ensures quality and trouble free operation.

The Sprinter comes complete with a reverse function and solid state digital temperature controls. The advanced six-roller design features 4 heated and 2 cold rollers to ensure perfect document lamination without the use of a carrier. The memory function helps to select the perfect temperature and speed for individual requirements with it's adjustable temperature control.

Laminating pouches from 3 to 10 mil and handling pouches up to 12" x 18", the 335R6 offers all metal construction with a smooth quiet motor and indicator lights tell the operator when it is ready to use.
